*Estimate based on feedback from colleagues, final process to be implemented for next quarter

**New process implemented July, figures available from end of July

^Error with duplication of cases on objective

^^Error with duplicated cases on objective up to December

What do these figures show?

The public have confidence in Charities

1. How much trust the Public has in charities from the bi-annual general public survey.
2. The percentage of the public are aware of the Scottish Charity Regulator from the bi-annual general public survey.
3. The percentage of adults have provided time/money/goods to a charity in the past 12 months from the bi-annual general public survey.
4. The percentage of concerns that which are risk assessed as 'Not Appropriate' to OSCR.
5. The number of Scottish Charity Register searches carried out on either a Charity number or keyword.
6. The number of charities on the Scottish Charity Register that have provided a web link to their published accounts in their most recent annual return. This is a running total.
7. This uses the number of times a tweet is on individual feeds and the number of interactions to provide a measure of the impact of the tweet
8. This uses the number of interactions with the post to measure the impact with the post.
9. The number of subscribers to OSCR's bi-monthly newsletter
10. The percentage of OSCR newsletter subscribers who open the email
11. The percentage of OSCR newsletter subscribers who click on links within the email
12. The number of Charity Accounts currently awaiting redaction before posting on the Scottish Charity Register
13. Total number of visits to OSCR website
14. The number of times an S33 report is viewed on the website
15. The number of times a news item is viewed on the OSCR website

16. The number of charities that have come off the Scottish Charity Register. This includes voluntary removals and charities found to no longer meet the charity test, including removals resulting from our search processes finding a charity no longer to be active.
17. Charities which are removed from the register but have remaining charity assets still have a duty to report to OSCR.
18. The number of inquiries into charities which are currently ongoing (Low, Med and High)
19. The number of concerns which have been received in the month and it is appropriate for OSCR to investigate further (including S46)
20. The value of assets released by a Charity once OSCR have approved a re-organisation if the purpose of the reorganisation is to release assets.

Charities are well run and thriving

21. The number of times guidance provided by OSCR has been viewed via the website.
22. The number of times OSCR produced online training videos and guides have been accessed via YouTube and the website
23. The average number of days taken from initial contact to completion of the risk assessment for status applications, concerns and notifiable events
24. The number of status applications which have been risk assessed and are awaiting a decision. This includes those awaiting risk assessment
25. The number of concerns awaiting completion, this includes those awaiting risk assessment
26. The number of notifications we have received

27. The number of consents which are awaiting completion
28. The number of notifiable events received
29. The number of charities who are outside the 9 month deadline to submit their annual return and report to OSCR
30. Percentage of s.11, s.12 and s.16 consents that were decided within the statutory deadline of 28 days (of receipt of a complete application)
31. Percentage of reorganisation cases in which the statutory deadlines to acknowledge receipt within 14 days and issue a final decision within the required timescale (dependant on type of reorganisation) have been met.

Charities are at the heart of a vibrant and sustainable Scotland

32. The number of times OSCR has held meetings with Ministers and SG officials to discuss matters surrounding charities
33. This shows whether OSCR has held an annual Parliamentary reception to raise OSCR's profile
34. Demonstrates whether OSCR has fulfilled its obligation to lay its Annual Report and Accounts before parliament by the deadline
35. A measure of the awareness of OSCR work by MSP's
36. This measures the number of times OSCR has worked with relevant organisations to improve regulation and to support charities
37. The number of S33 inquiry reports published on the OSCR website. This provides an indication of when OSCR has been required to publish an inquiry report when we have chosen to do so to share useful lessons for the wider sector

The Charity Regulator is a highly effective organisation

38. This measures whether or not OSCR has reduced emissions in line with SG goals
39. The number of days taken to process low risk status applications after risk assessment
40. The number of days taken to process low risk notifiable events applications after risk assessment
41. The number of days taken to process low risk concerns applications after risk assessment
42. A measure of the service customers have had after interactions with OSCR
43. Number of formal complaints received
44. Percentage of complaints dealt with within 20 days
45. The average number of working days lost to long term sickness absence
46. The average number of working days lost to short term sickness absence
47. The overall OSCR Engagement score from the Civil Service people survey
48. The percentage of people within OSCR who felt discriminated against from the Civil Service people survey
49. The percentage of people within OSCR who felt bullied/harassed from the Civil Service people survey
50. The OSCR proxy stress indicator from the Civil Service people survey
51. The number of payments to contractors made within SG guidelines
52. The percentage of appraisals carried out with Board Members by the Chair
